

Seattle Children's

Emergency or Urgent Care?

When your child needs medical care and can't wait until your doctor's office opens, where should you go?

This chart will help you know whether a visit to Urgent Care or the Emergency Department is best. Urgent Care is not intended for emergencies, but is appropriate for minor illnesses and injuries.

Remember, if your child's illness or injury is life-threatening, call 911.

Children don't get sick just during office hours

That's why we offer evening and weekend care at our Urgent Care Clinics in Bellevue, Mill Creek and Seattle. We care for kids and teens with a whole range of illnesses and minor injuries, including strains and sprains, pink eye, cuts and bruises, vomiting, diarrhea and dehydration, fever, earaches, asthma attacks, abdominal pain and urinary tract infections.

Urgent Care is not intended for emergencies, but is appropriate for minor illnesses and injuries. Please see the opposite side of this flyer for a chart that will help you decide whether a visit to Urgent Care or the Emergency Department is best. Out-of-pocket costs for urgent care are typically less than an emergency room visit.

In case of an emergency, please go to Seattle Children's Hospital Emergency Department. Remember, if your child's illness or injury is life-threatening, call 911.
