Course Description

This course is designed to improve your clinical practice by providing up-to-date information and practical evaluation and management strategies for children who present with common medical emergencies encountered in the primary care of children. The curriculum includes lectures and workshops with an opportunity to discuss issues with emergency room experts.

Who Should Attend

Pediatricians, Family Physicians, Nurse Practitioners, Nurses & Physician Assistants, School Nurses and allied health professionals.

Course Location

Children’s Hospital & Regional Med. Center
Wright Auditorium
4800 Sand Point Way NE
Seattle, WA 98105
(Parking is free - see map enclosed with registration confirmation letter)

Course Objectives

Participants will review, discuss and engage in hands-on workshops which will allow them to apply practical diagnostic and treatment/management tools for pediatric emergencies relating to:

- Genitourinary tract
- Syncope
- Infectious diseases
- Abdominal pain
- Trauma
- Radiograph interpretation
- Suturing
- Foreign body removal
- Teeth
