

Is your baby's crib safe?

How about your child's
playpen or high chair?

Each year, more than 50,000 children in the U.S. are treated in emergency rooms for injuries caused by recalled products such as cribs, playpens and high chairs.

Before buying or re-using a product, check to be sure it is still safe and has not been recalled.

It's easy to check! Contact the CPSC
(Consumer Product Safety Commission)

- **Phone:** 1-800-638-2772
- **TTY:** 1-800-638-8270
- **Web Site:** www.cpsc.gov
- **Email:** Sign up to receive recall notices at www.cpsc.gov/about/subscribe.html

Many libraries have free internet access.

Protect your child. Check for recalls first.
