

Multi Disciplinary Team (MDT)
Psychiatric Evaluation Program
In Collaboration with the Wyoming Department of Health

In addition to the referral form, the following documents are required for participation in an MDT psychiatric evaluation. These consents need to be signed by the patient's legal guardian and submitted prior to scheduling. Submit all consents via fax 206-985-3195 or email mdtconsult@seattlechildrens.org

Multi-Disciplinary Team Psychiatric Consultation

Description:

A "MDT Psychiatric Consultation" is a one-time consultation provided at the request of a child's Multi-Disciplinary Team (MDT) for the purpose of aiding mental/behavioral health assessment and/or treatment planning. The consultation is performed by a child psychiatrist at Seattle Children's Hospital under a contract with the Wyoming Department of Health. Referrals can be made for a variety of reasons, but typically are due to a concern that behavioral problems, psychological issues or psychiatric symptoms are impacting functioning, safety or placement needs. **There will be no financial charges to parents and/or caregivers for a MDT Psychiatric Consultation.**

Outcomes of a MDT Consultation may include, but are not limited to, providing an opinion about whether a mental health problem (like depression, anxiety, or ADHD) is impacting current behavior, providing education about treatment options and implications of a current diagnosis, recommending appropriate treatment for identified psychiatric and behavioral issues; reviewing the appropriateness of current medications, and discussing treatment planning/placement considerations for mental health problems and unsafe behaviors. Recommendation(s) will vary depending on the focus of the consult but may include suggestions about medications, further assessment of relevant medical issues, recommendations about appropriate levels of supervision and behavioral support; appropriate family and community interventions, indicated psychological treatments or strategies to identify and address academic and behavioral needs. ***MDT Psychiatric Consultations will not formally diagnose learning disorders, perform IQ or other standardized psychological testing, recommend who should have custody, forensically investigate sexual abuse, conduct a psychosexual evaluation, prescribe levels of supervision within a facility, or directly mandate a placement.***

Information reflected in the report and subsequent recommendations are limited to information provided at the time of the consultation and may not reflect all relevant/pertinent information. The resultant report should be used in conjunction with other pertinent information collected by the MDT in an effort to provide the best possible care. Documentation provided in support of this consultation may be reviewed at the discretion of the consultant. Helpful past documentation includes previous psychiatric or psychological assessments, inpatient/residential treatment discharge summaries, recent IEPs, recent primary care notes, psychiatric or therapy progress notes.

Consent and Authorization to Release Information:

I have read the above information and agree to participate. I understand that information provided for purpose of this evaluation will be made available to the MDT team members and a judge assigned to the case, and may be used in further treatment planning. Because this is a consultation requested by a third-party, **information shared during this process and the assessment resulting from this consultation will be provided to the MDT that is requesting this evaluation.** This report and/or information contained herein will also be provided to Wyoming Department of Family Services, Xerox Care and Quality Solutions (CQS) and/or medical/legal entities as required related to this evaluation.

AUTHORIZATION AND CONSENT TO PARTICIPATE IN TELEMEDICINE CONSULTATION

The purpose of this form is to obtain your consent to participate in a telemedicine consultation(s) with a Seattle Children's pediatric specialist.

- 1) **Purpose and Benefits.** The purpose of this use of telemedicine is to facilitate access to pediatric specialists that are not otherwise readily available at the patient's location.
- 2) **Nature of Telemedicine Consultation:** During the telemedicine consultation:
 - a) Details of you and/or your child's medical information may be discussed with you or health professionals through the use of interactive video, audio and telecommunications technology.
 - b) Physical examination of you or your child may take place.
 - c) Nonmedical technical personnel may be present in the telemedicine studio, either physically or virtually, to aid in video transmission.
 - d) Video, audio, and/or digital photo may be recorded during the telemedicine consultation visit.
- 3) **Medical Information and Records.** All existing laws regarding your access to medical information and copies of your medical records apply to this telemedicine consultation. Additionally, dissemination of any patient-identifiable images or information from this telemedicine interaction to researchers or other entities shall not occur without your consent, unless authorized under existing confidentiality laws.
- 4) **Confidentiality.** Reasonable and appropriate efforts have been made to eliminate any confidentiality risks associated with the telemedicine consultation. Telemedicine studios used for Seattle Children's appointments will be in private rooms. All existing confidentiality protections under federal and Washington State law apply to information disclosed during this telemedicine consultation.
- 5) **Risks and Consequences.** The telemedicine consultation will be similar to a routine medical office visit, except interactive video technology will allow you to communicate with a physician at a distance. The use of video technology to deliver healthcare and educational services is a technology that may not be equivalent to direct patient to physician contact. Following the telemedicine consultation, your physician may recommend a visit to Seattle Children's for further evaluation.
- 6) **Rights.** You may withhold or withdraw consent to the telemedicine consultation at any time without affecting your right of future care or treatment. You have the option to consult with the specialist in person if you travel to his or her location.

I have been advised of all the potential risks, consequences and benefits of telemedicine. I have had an opportunity to ask questions about this information and all of my questions have been answered. I understand the written information provided above.

AUTHORIZATION TO OBTAIN/RELEASE PATIENT HEALTH INFORMATION (PAL)

PATIENT LABEL

AMBULATORY

CONSENT FOR CARE AND FINANCIAL TERMS AND CONDITIONS

1. CONSENT FOR CARE

I, patient/parent/authorized representative, give permission for examinations, diagnostic procedures, medical treatment and other hospital services. Such services will be performed or prescribed by or at the direction of the attending doctors/dentists and their designees as judged necessary for the medical care of the patient. These may include x-ray examinations, lab tests (including, for females age 12 or older, a pregnancy test), sedation, and the use of local anesthesia (whether performed at Seattle Children's Hospital (Children's) or at other facilities). I understand that Children's is a teaching hospital and that doctors in training and other health care students may join in or observe the care of the patient. I give permission for my/the patient's body fluids (blood, urine, etc.), tissues and organs removed during the course of treatment to be used for scientific and/or research purposes. This biological material will be unmarked to protect my/the patient's identity and used only after diagnostic and/or therapeutic uses have been completed.

2. FINANCIAL TERMS AND CONDITIONS

I agree:

- To assign to Seattle Children's Hospital (Children's), Children's University Medical Group (CUMG), and UW Physicians (UWP) all insurance benefits payable for services rendered.
- To pay Children's in a timely manner for any uncovered services or balance remaining after insurance benefits.
- To authorize Seattle Children's Hospital (Children's) to act as my representative in any appeal of an adverse determination concerning my insurance coverage for health care services.
- To notify Children's of changes to my insurance coverage and/or address and phone number.
- That Children's may charge me reasonable interest, late charges, costs and/or reasonable attorney fees should my account become overdue.
- That any lawsuit for collection of my account will be brought in King County, Washington.

I understand that:

- Many Seattle Children's Hospital (Children's) clinics are licensed as part of the hospital. If I am seen at one of these clinics, I will receive a separate charge for the hospital facility services which may result in higher out of pocket expenses.
- Children's is the billing agent and does the billing for the professional services of CUMG/UWP physicians and providers.
- If I am eligible for financial assistance, my bill may be reduced or waived.
- If I dispute a claim, or a claim involves a third party, Children's will not negotiate with the third party for me. It is my responsibility to pay the bill on time, settle the dispute, and/or collect from the third party.

For Medicare Beneficiaries:

I request payment of authorized benefits, when applicable, be made on my/the patient's behalf. I authorize any holder of medical or other information to release to Medicare and its agents any information needed to determine these benefits for related services.

3. PHOTOGRAPHS/VISUAL IMAGES/AUDIO RECORDINGS

I authorize Seattle Children's Hospital to take and reproduce photographs, video and audio recordings in connection with my/the patient's diagnosis, care and treatment, and other operational purposes such as medical education.

PATIENT LABEL

Joint Notice of Privacy Practices of Seattle Children's Hospital and Certain Other Providers

Notice effective 7/10/2013

Summary

While you are receiving care at Seattle Children's Hospital, doctors, nurses and others create and receive information about you, your health history and treatment. This is known as "your patient health information."

Most patients of Seattle Children's Hospital are children. When we talk about "you" or "your" in this notice, we are talking about the patient. It doesn't matter if the patient is a child or an adult. When we talk about "disclosures to you," we mean disclosures to the patient, the patient's legal representative, or a person allowed to receive information about the patient. We are responsible for protecting your health information.

You have certain rights. You may:

- See and receive copies of your patient health information.
- Ask for a change or addition to your patient health information.
- Ask for a list of ways your patient health information has been disclosed or shared outside Children's.
- Ask us to contact you another way.
- Ask that we limit the use of your patient health information.
- Make a complaint about the privacy of your patient health information.

You may also:

- Ask us not to give your name and health status to callers and visitors during your hospital stay.
- Ask us not to share information with family members.

Following certain rules, we may use and share your patient health information:

- To perform treatment, healthcare operations or to get payment.
- To teach and train staff and students.
- To do research approved by an Institutional Review Board.
- As required or allowed by law, or with your written authorization.

The law provides extra protection for these types of patient health information:

- Sexually transmitted disease information (including HIV/AIDS)
- Drug and alcohol abuse treatment records
- Mental health records

We are required by law to:

- Protect the privacy of your information.
- Provide this notice about our privacy practices.
- Follow the privacy practices described in this notice.
- Notify you if your patient health information has been compromised.

This notice describes how your medical information may be used and disclosed and how you can get access to this information. Please read it carefully.

This notice describes your rights and our responsibility to protect the privacy of your patient health information. It tells you about laws that give you protection for this information. Children's privacy practices apply to all Children's patients. This notice explains how your patient health information is used, and how and when it may be disclosed. It also tells you that we may change this notice and how you can find out about the changes.

Healthcare providers covered by this notice

- Seattle Children's Hospital
- Seattle Cancer Care Alliance
- UW Medicine, including University of Washington Physicians and other University organizations
- UW School of Dentistry
- Children's University Medical Group
- Other providers when they use Children's facilities

Healthcare providers covered by this notice

Children's works with other organizations and providers for healthcare services and other healthcare operations. This notice gives you information about the use and disclosure of your patient health information by these providers: Seattle Children's Hospital; Seattle Cancer Care Alliance; UW Medicine, which includes University of Washington Physicians and other University organizations; the UW School of Dentistry; and Children's University Medical Group. In addition, other providers agree to follow this notice when they deliver care or other services at Children's facilities.

Children's

Children's includes organizations that work together and share patient health information. When it's appropriate, Children's shares your information to give clinical care services, get payment for these services and perform other joint healthcare operations. Children's is composed of its medical staff, healthcare providers, employees, contract staff, residents, students and volunteers at Children's facilities. These facilities include:

- Seattle Children's Hospital
- Odessa Brown Children's Clinic
- Children's Bellevue Clinic and Surgery Center
- Children's Outpatient Clinics in Washington, Alaska and Montana. See the current list at www.seattlechildrens.org/clinics-programs/
- Children's Autism Center
- Children's Consulting Nurses
- Children's Home Care Services
- Children's Orthotics & Prosthetics
- Children's Prenatal Diagnosis and Treatment Program
- Garfield/NOVA Teen Clinic

Your patient health information rights

You have rights for the use and disclosure of your patient health information. You may:

Review and receive copies.

You have the right to look at or ask for a copy of your health record unless there are other protections under the law. You will need to make your request in writing. You may tell us if you would like to receive a paper copy or an electronic copy of the record. In some cases, you may be charged copying fees.

Your patient health information rights

- Review and receive copies
- Request a change or addition to your record
- Know about disclosures
- Request restricted use
- Receive confidential communications
- Make complaints

Request a change or addition to your record.

If you think information in your record is not correct or that important information is missing, you have the right to ask that we correct or add information. You must make this request in writing. Your request must give a reason for the change or addition. We are not required to grant your request, but we will add a copy of your request to the record.

Know about disclosures.

You have the right to receive a list of disclosures of your patient health information that Children's has made as required by law. This list does not include disclosures related to treatment, payment or healthcare operations or disclosures you have authorized. The first request you make for your information in a 12-month period is free of charge. You will be charged a processing fee for any other requests made within the same 12 months.

Request restricted use.

You have the right to ask Children's not to let your insurance company know about an item or service if you pay in full before we send a bill. Call Business Services at 206-987-3333 for more information. You also have the right to ask us in writing to restrict certain other uses and disclosures of your patient health information. We are not required to grant these requests, but we will honor any requests we do grant.

Receive confidential communications.

You have the right to ask us to tell you about health matters in a certain way or at a certain location. You must request this in writing. For example, you may ask us to contact you only at work or only by mail. Your request must tell us how or where you want to be contacted. We will let you know if we will grant your request.

Make complaints.

If you are concerned that we may have violated your privacy, or you disagree with a decision we have made about access to your records, you may file a complaint with Children's Privacy Office. Children's will not retaliate against you for filing a privacy complaint.

How we use your patient health information

This notice applies to patient health information created at or received by Children's providers. It identifies you and relates to your past, present or future physical or mental condition. It also has to do with the care you receive, and past, present or future payment for the care. This information is often found in your health record. The main reasons we use your patient health information are to:

- Communicate among health professionals who help with your care.
- Provide a legal record for the care you receive.
- Send bills so that we can get payment for the care you receive.
- Let you or a third-party payer make sure your bill matches with the services you received.

Children's may also give information to:

- Teach health professionals.
- Support public health activities.

- Monitor, measure and improve the care we give and the results we achieve.
- Provide medical research data.
- Do planning for the organization.

Understanding your record and how your patient health information is used helps you to:

- Make sure the record is accurate.
- Learn who, what, when, where and why others may access your patient health information.
- Make an informed decision when you give permission to share information with others.

How we can use and disclose your information without your authorization

Here are some examples of how we may use and share your patient health information without your authorization:

Treatment

We may use and share your patient health information to give or arrange care for you. For example:

- Your doctors use your information to decide if they should order specific diagnostic tests, therapies and medications.
- Nurses, technicians or other employees may need to know about and talk about your information. They may use it to provide treatment and to measure your response to treatment.
- We may share your information with your other care providers in the community.

Payment

We use and share your patient health information to get payment for healthcare services. For example, if you are covered by health insurance and we bill the insurance directly, we include information that identifies you, your diagnosis, procedures you received and supplies we used.

Healthcare operations

We may use and share your patient health information to schedule, check and improve healthcare services. We may also use it to measure the performance of staff caring for you and others. For example, supervising doctors may look at your patient record to measure quality of care.

Training

We may use and share your information to teach and train staff and students. For example, teaching doctors may look at patient health information with medical students.

Research

We may use and share your information for research. An Institutional Review Board (IRB) looks at each request to use or disclose information for research. An IRB looks at projects for safety and to make sure the rights of people who take part in the research are protected.

How we can use and disclose your information without your authorization

- Treatment
- Payment
- Healthcare operations
- Training
- Research
- Contacting you
- Fundraising
- Joint activities
- Business Associates
- Other uses and disclosures

Notice of Privacy Practices

Your patient health information may be used or shared for some research without your consent. For example, we might:

- Look at medical charts to see if people who wear bicycle helmets get fewer head injuries.
- Use patient health information to decide if we have enough patients for a cancer research study.
- Include patient health information in a research database.

In these cases, an IRB first decides if we have a good reason to use your information without your permission. The IRB also makes sure we take steps to limit the use of your information. The IRB may let researchers record information that identifies you, if it is important for the research.

In all other cases, we must get your permission to use or share your information before you take part in a research project. We may share patient health information about you with researchers at other institutions with your permission, or if an IRB approves it.

Contacting you

Your patient health information may be used to contact you. For example, we may call you or send you a letter to:

- Remind you about appointments.
- Provide test results.
- Let you know about treatment options.
- Let you know about health education events or services.

Fundraising

Children's may give patient health information like your name, address, phone number and dates of service to our Foundation and Guild Association. This information may be used to contact you about fundraising for Children's healthcare mission. If you are contacted for fundraising, you may request not to be contacted again. We must honor your request.

Joint activities

Providers may use or share your patient health information for joint activities with other individuals or organizations to:

- Provide clinical care services.
- Make sure we receive payment for clinical care services.
- Perform other joint healthcare operations.

For example, we may share your patient health information for joint activities with doctor groups and other doctors who are part of Children's medical staff.

Business Associates

Some of our services are provided by Business Associates. We may share your patient health information with them so they can do their jobs. Some examples of associates we use are management consultants, auditors, transcription services and information storage services. We require associates to sign contracts to protect your information.

Other uses and disclosures

We may share your patient health information to make healthcare services better, protect patient safety and public health, make sure we follow government and accreditation standards, and when otherwise allowed by law. For example, we may give information to:

- Healthcare oversight agencies for auditing or licensure
- Public health authorities about infectious diseases and vital records
- Government agencies when we suspect abuse or neglect
- Appropriate individuals to avoid a serious threat to health or safety, or to prevent serious harm to others
- Organizations that specialize in organ donation activities
- Law enforcement when required or allowed by law
- Courts when ordered, or by lawful subpoena
- The FDA
- Coroners, medical examiners and funeral directors
- Government officials as required for specific government functions like national security
- Public or private organizations (such as FEMA or the American Red Cross) that are authorized by law to help in disaster relief efforts

Uses and disclosures that must have your authorization

Other than the uses and disclosures listed in this notice, we will not use or share your patient health information without your written authorization. If you give us written authorization, you may cancel that authorization at any time unless:

- We require disclosure to get payment for services you have already received.
- We have already relied on the authorization.
- The law prohibits you from cancelling it.

In some situations, the law provides special protections for specific kinds of patient health information like drug and alcohol treatment records and mental health records. When required by law, we will contact you to get written authorization to use or disclose that information.

We must have your written authorization before using or disclosing your patient health information for marketing purposes or before selling it.

Times when you can ask us not to share your patient health information

Hospital Inpatient Directory

If you are admitted to the hospital, we list you in a directory. This information only includes name, location in the hospital and general health condition (for example, “satisfactory,” “serious,” “critical”). Unless you tell us not to, we may provide this information to visitors or callers who ask for you by name. You can choose to put your family’s religion on the admission form. If you do, we may give your name and location to clergy of your religion.

- Disclosure to family, friends or others

Notice of Privacy Practices

Disclosure to family, friends or others

Unless you tell us not to, your healthcare providers will use their professional judgment to give appropriate patient health information to a family member, friend or other person you name.

Other providers covered by this notice

Seattle Cancer Care Alliance (SCCA)

SCCA operates together with Children's, UW Medicine and Fred Hutchinson Cancer Research Center to provide both inpatient and outpatient cancer care. Patient health information is shared among these organizations when appropriate for treatment, payment and certain joint healthcare operations. This notice applies to SCCA's use and disclosure of your information for treatment SCCA provides at Children's. For a description of SCCA's privacy practices, which apply to all other SCCA activities, please refer to its Notice of Privacy Practices.

UW Medicine and UW School of Dentistry (UW SOD)

UW Medicine and UW SOD, through faculty doctors, dentists and other healthcare providers, provide or take part in clinical care services at Children's. Patient health information is shared among Children's and these organizations when appropriate for treatment, payment and certain joint healthcare operations such as peer review and quality improvement activities, accreditation activities and evaluation of trainees.

Children's University Medical Group (CUMG)

Faculty doctors of the University of Washington School of Medicine who practice with CUMG, a nonprofit healthcare provider, provide or take part in clinical care services at Children's. Patient health information is shared between Children's and CUMG when appropriate for treatment, payment and certain joint healthcare operations. Examples include conducting quality assessment and improvement activities; reviewing the competence or qualifications of healthcare professionals; developing compliance programs; and engaging in business planning, development and management and general administrative activities.
