

Date: _____

Dr. _____

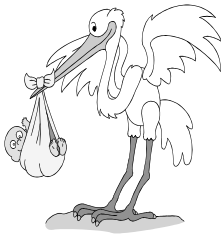

Baby Name: _____

Baby DOB: _____

Baby _____ passed the initial hearing screen administered using BAER EOA testing. The child's parents have been informed of the results. If you have any questions, please contact (your UNHS program contact info)

-Thank You-

I HAD MY FIRST HEARING TEST!

Your baby has passed the hearing screening. Good hearing is important for your child to learn speech and language. Too often, hearing loss is not found until a child already has a speech or language delay, which is why your baby's hearing was tested today. If you have any questions or concerns, please contact your baby's doctor or (your UNHS program contact info)
