

Seattle Community Centers and Parks Programs

Active Play Every Day

One hour of physical activity every day keeps kids and teens healthy. Being active helps kids and teens feel happy. It also helps them sleep well and do better in school.

Community centers and parks programs are great places to go for fun and physical activity. They have classes in dance, soccer, martial arts, and other activities. Many of them have youth sports teams like basketball and volleyball. Many of them also have indoor play gym times for infants, toddlers and preschoolers.

Check with your local community center or parks program to find a physical activity class or sports team. You can find and register for classes on-line, in person, or over the phone. If you need help paying for classes, ask about scholarships. Many community centers and parks programs also have special times or classes that are lower in cost. Use this handout to find a community center or parks program near you.
