Creative Time Materials
Download this printable to let your children create their own skeletons. They have to cut out all the bones and piece them together to form a skeleton. Then, paste it on a piece of black or dark coloured construction paper. Alternatively, you can print, laminate and cut out the bones. Place
Build a Skeleton
Glue all the parts together on a black piece of construction paper.
MUSCLES move your body!

https://www.livinglifeandlearning.com/muscular-system-hand-craft-for-kids.html

- You may use a glue stick instead of tape, but wait for it to fully dry!

Outline your hand on the cardstock and cut it out

Cut three straw segments for each finger and two for the thumb, we used the long portion to go down the hand to the wrist.

Line up the straw segments on each finger, make sure they are aligned and tape them down without covering the ends.

Tape the yarn to the back of the hand and then thread it through each finger segment down to the wrist.
Human Body
Learn about the organs and where they belong.

Brain
Lungs
Liver
Gallbladder
Kidneys
Small intestine
Heart
Spleen
Stomach
Diaphragm
Pancreas
Large intestine
Human Body
Cut out the organs and arrange where they belong.

- Touch

Color the body parts.
Cut out the pieces.
Paste onto a paper plate.
Decorate with wool for hair.
What happens in your BRAIN?

Watch this:

https://www.youtube.com/watch?v=mFuHKJqpxPw

Use the black construction paper and crayons to show the many connections your brain is making.

It might look a bit like this!
