Creative Time Materials
Create your own favorite vehicles:

1) Use the template to cut out the shape. Trace on the color of construction paper you choose.

2) Build a vehicle.

3) See examples above for ideas, but try to make it your own design.
Make your own cars!

Directions:

1) Cut a paper plate in half.- you just made 2 cars
2) Cut several 1" squares out of tissue paper.
3) Cover the plate in the tissue paper. (see example)
4) Make wheels- circles and windows- rectangles and bumpers or license plates or any other details you would like to be on your vehicle.
5) Glue on your details.
6) Name your new vehicle (i.e. Ford, shapster or Toyota, el papel)
Sailboat on a Lake

1. Make guide lines. Draw the boat.
2. Add the left sail.
3. Draw a right sail. Add flag.
4. Draw wavy water line in back.
5. Draw zig zag trees.
6. Add more trees in between.
7. Draw some clouds.
8. Trace with black marker. Draw water lines with white crayon.
9. Paint with watercolor. Add another layer of green to darken.
Have an adult help you with this activity. DO NOT throw a paper airplane at another person, animal or object as paper can be sharp or pointy.

DUSTY

1. 
2. 
3. 
4. 
5. 
6. 
7. 
8. 
9. 

DIRECTIONS:

Print the pages on regular paper.

1-2). With the white side of the first rectangle you choose facing you, fold the rectangle in half and unfold it so the paper lays flat again. Now, fold the left two corners towards you.

3). Fold the triangle you created with the first set of folds towards you so the point lines up with the center of the rectangle.

4). Fold the top two corners towards you again, but this time, start the fold out from the center line a little bit so the corners touch the center line of the airplane when folded.

5). Fold back the triangle tip that peeks out from behind your new folds to hold them in place.

6-7). Flip the airplane over so the design is now facing you and fold it in half towards you on the dashed line.

8-9). Fold down the wings on both sides and you are ready to fly!

DIRECTIONS:

Print these pages on regular paper.

1-2]. With the white side of the first rectangle you choose facing you, fold the rectangle in half and unfold it so the paper lays flat again. Now, fold the left two corners towards you.

3). Fold the triangle you created with the first set of folds towards you but to the second indicator line so the point lines up with the center of the rectangle.

4. Fold the top two corners towards you again, but this time, start the fold out from the center line a little bit so the corners touch the center line of the airplane when folded.

5) Fold back the triangle tip that peaks out from behind your new folds to hold them in place.

6-7) Flip the airplane over so the design is now facing you and fold it in half towards you on the dashed line.

8-9) Fold down the wings on both sides and you are ready to fly!
