An acute care hospital may not be the appropriate setting for all reproductive health services listed below. Some reproductive services are most appropriately available in outpatient settings such as a physician office or clinic, depending on the specific patient circumstances.

The following reproductive health services are generally available at the above listed hospital:

**Abortion services**
- Medication abortion
- Referrals for abortion
- Surgical abortion

**Contraception services**
- Birth control: provision of the full range of Food and Drug Administration-approved methods including intrauterine devices, pills, rings, patches, implants, etc.
- Contraceptive counseling
- Hospital pharmacy dispenses contraception
- Removal of contraceptive devices
- Tubal ligations
- Vasectomies

**Emergency contraception services**
- Emergency contraception - sexual assault
- Emergency contraception - no sexual assault

**Infertility services**
- Counseling
- Infertility testing and diagnosis
- Infertility treatments including but not limited to in vitro fertilization

**Other related services**
- Human immunodeficiency virus (HIV) testing
- Human immunodeficiency virus (HIV) treatment
- Pre-exposure prophylaxis (PrEP), post-exposure prophylaxis (PEP), prescriptions, and related counseling
- Sexually transmitted disease testing and treatment
- Treatment of miscarriages and ectopic pregnancies

**Pregnancy-related services**
- Counseling
- Genetic testing
- Labor and delivery
- Neonatal intensive care unit
- Prenatal care
- Postnatal care
- Ultrasound

**Comments; limitations on services; other services**
Some of the services marked are most appropriately provided outside of the acute care hospital setting and may be available at one of Seattle Children's licensed clinic locations. Some of the services marked are available only under specific patient circumstances. Please contact the hospital with specific questions.
