42nd Annual Duncan Virtual Seminar
Cerebral Palsy: To Mobility and Beyond

Broadcast from Seattle Children's

March 26, 2021

Course Objectives, Faculty and Planning Committee

Participants will:

- Identify evidence-based strategies to care for children and families with Cerebral Palsy (CP).
- Describe novel and current treatments for children with CP to promote mobility.
- Identify community and advocacy resources to promote health and participation of children with CP.
- Facilitate equitable interdisciplinary care for children with CP.
- Discuss approaches to alternative and augmentative communication to support development.
- Increase understanding of the family's journey in caring for their child with CP.
