Outreach Education

Course Content and Objectives

Experts from Seattle Children's and the community will present evidence-based recommendations on commonly occurring neonatal health issues. You will gain practical tips and tools, resources and information to serve NICU patients and their families better in your practice setting.

At the completion of this seminar, participants will be able to:

- Describe mental health issues in NICU families, and how to support struggling parents.
- Discuss the contribution of newborn mortality to global childhood mortality.
- Define harlequin ichthyosis.
- Identify ways to improve developmental care for critically ill infants in the NICU.
- Apply standards of holistic nursing as methods for thinking, reflecting, enhancing practice, and being in the world of NICU nursing.
- Identify strategies to improve oral feeding competency in NICU infants.
- Apply antibiotic stewardship principles to NICU nursing practices.
- Recognize the indications, techniques, and outcome data on transcatheter PDA closure in term and premature infants.
- Discuss neonatal surgical emergencies.
- Explain different modes of neonatal ventilation.
- Identify neonatal patients who qualify for ECLS.
- Express the benefits of continuity of care for patients and their families.

Who Will Benefit Most from Attending This Event

This conference is intended for nursing professionals with a passion for neonatal care. We seek to provide evidence-based changes in care and address hot topics in the neonatal intensive care unit.

Information

- Detailed directions to Sand Point Learning Center can be accessed at seattlechildrens.org/outreach.
- Off-site parking details and information will be sent closer to the conference date.
- To request any special dietary (vegan, vegetarian, gluten-free) accommodations necessary for your participation in this conference, contact Lynna Song at 206-987-5318 or email lynna.song@seattlechildrens.org.
