- **Update in Teen Substance Use Disorder**
- **Depression in Children and Adolescents**
- **Evolution of Care Coordination**
- **Care Coordination in Action: Asthma Action Plan**

Seattle Children's
HOSPITAL • RESEARCH • FOUNDATION

Outreach Education

Course Content and Objectives

Experts from Seattle Children's and the community will present evidence-based recommendations on commonly occurring medical and mental health issues. You will gain practical tips and tools, resources and information to better serve children with special healthcare needs and their families in your practice setting. We invite you to bring your questions and concerns to share with the conference faculty and your colleagues.

Participants will:

- Describe post concussion protocols, from injury to recovery.
- Optimize pediatric urology health with an update on catheterization and age appropriate care.
- Learn about the patterns of substance use and substance use disorder in teens and associated screening and treatment.
- Describe how to care for children with anxiety and depression as co-occurring conditions.
- Learn how to apply the newest standardized order set process to improve care coordination between care settings.

Who Will Benefit Most From Attending This Event

Nurses and allied healthcare professionals caring for children with special healthcare needs in school, primary care, public health and other ambulatory care settings.

Information

- Detailed directions to Seattle Children's Wright Auditorium and parking information will be included with your confirmation.
- For questions or to request any special dietary or other accommodations necessary for your participation in this conference, please contact Lynna Song at 206-987-5318 or email lynna.song@seattlechildrens.org.
