

Substance Use

Substance Use Concern?

Teens dealing with substance abuse often do not seek care.
Screening and surveillance are required to detect substance use problems.

Diagnosis:

Review limits of confidentiality, a likely area of concern for teens. Talking honestly about it can boost alliance.
Look for distress or impaired functioning related to use of the substance. DSM 5-criteria include reduced control over use of the substance, risky use, social impairment (missing school or recreational activities), tolerance, or withdrawal.
CRAFFT rating scale may augment assessment.

Safety check:

Suicidal? Homicidal? Weapon access (especially guns)?
Driving and substance use? Prescribed controlled substances?
Medication diversion?

Think about comorbidity:

2/3 of teens with a substance use disorder have comorbid psychiatric difficulties.
ADHD (even without stimulant treatment) may increase risk of substance use disorder.
Depression, anxiety, and conduct disorder can be associated with substance use disorders.

Can problem be managed in primary care?

YES

(problem is noticeable, but youth basically functioning okay)

If minimal, offer brief advice to quit and psychoeducation about effects of substances.

If mild to moderate, use nonjudgmental questioning and listening to reinforce the youth's positive choices and build motivation to change. For example, start with "What are the positive and negative effects of marijuana in your life?" Then, instead of "You need to stop using marijuana," could say "If you were to reduce your marijuana use, how would you go about it?"

Encourage engagement with pro-social peer group.
Prescribe healthy habits (regular sleep, exercise, & nutrition).

Appropriately treat comorbid conditions. Recommend individual therapy to build skills toward self-efficacy, problem solving, and relapse prevention.

Empower parents to supervise and monitor.
Follow up frequently.

NO

(significant impairment or safety concerns)

Refer to a substance use program while offering on-going support and monitoring through the medical home.

The CRAFFT Interview (version 2.1)

To be orally administered by the clinician

Begin: "I'm going to ask you a few questions that I ask all my patients. Please be honest. I will keep your answers confidential."

Part A

During the PAST 12 MONTHS, on how many days did you:

- 1. Drink more than a few sips of beer, wine, or any drink containing **alcohol**? Put "0" if none.
of days
- 2. Use any **marijuana** (weed, oil, or hash by smoking, vaping, or in food) or "**synthetic marijuana**" (like "K2," "Spice")? Put "0" if none.
of days
- 3. Use **anything else to get high** (like other illegal drugs, prescription or over-the-counter medications, and things that you sniff, huff, or vape)? Put "0" if none.
of days

Did the patient answer "0" for all questions in Part A?

YES

Ask CAR question only, then stop

NO

Ask all six CRAFFT* questions below

Part B

	NO	YES
C Have you ever ridden in a CAR driven by someone (including yourself) who was "high" or had been using drugs?	<input type="checkbox"/>	<input type="checkbox"/>
R Do you ever use alcohol or drugs to RELAX , feel better about yourself, or fit in?	<input type="checkbox"/>	<input type="checkbox"/>
A Do you ever use alcohol or drugs while you are by yourself, or ALONE ?	<input type="checkbox"/>	<input type="checkbox"/>
F Do you ever FORGET things you did while using alcohol or drugs?	<input type="checkbox"/>	<input type="checkbox"/>
F Do your FAMILY or FRIENDS ever tell you that you should cut down on your drinking or drug use?	<input type="checkbox"/>	<input type="checkbox"/>
T Have you ever gotten into TROUBLE while you were using alcohol or drugs?	<input type="checkbox"/>	<input type="checkbox"/>

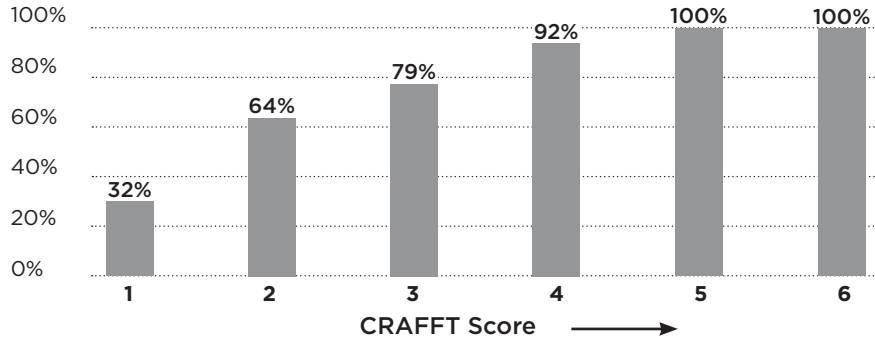

***Two or more YES answers suggest a serious problem and need for further assessment. See back for further instructions** →

NOTICE TO CLINIC STAFF AND MEDICAL RECORDS:

The information on this page is protected by special federal confidentiality rules (42 CFR Part 2), which prohibit disclosure of this information unless authorized by specific written consent. A general authorization for release of medical information is NOT sufficient.

1. Show your patient his/her score on this graph and discuss level of risk for a substance use disorder.

Percent with a DSM-5 Substance Use Disorder by CRAFFT score*

*Data source: Mitchell SG, Kelly SM, Gryczynski J, Myers CP, O’Grady KE, Kirk AS, & Schwartz RP. (2014). The CRAFFT cut-points and DSM-5 criteria for alcohol and other drugs: a reevaluation and reexamination. Substance Abuse, 35(4), 376-80.

2. Use these talking points for brief counseling.

1. REVIEW screening results
For each “yes” response: *“Can you tell me more about that?”*

2. RECOMMEND not to use
“As your doctor (nurse/health care provider), my recommendation is not to use any alcohol, marijuana or other drug because they can:
1) *Harm your developing brain;*
2) *Interfere with learning and memory, and*
3) *Put you in embarrassing or dangerous situations.”*

3. RIDING/DRIVING risk counseling
“Motor vehicle crashes are the leading cause of death for young people. I give all my patients the Contract for Life. Please take it home and discuss it with your parents/guardians to create a plan for safe rides home.”

4. RESPONSE elicit self-motivational statements
Non-users: *“If someone asked you why you don’t drink or use drugs, what would you say?”*
Users: *“What would be some of the benefits of not using?”*

5. REINFORCE self-efficacy
“I believe you have what it takes to keep alcohol and drugs from getting in the way of achieving your goals.”

3. Give patient Contract for Life. Available at www.crafft.org/contract
