Outreach Education Presents
Pediatric Emergency Assessment, Recognition and Stabilization (PEARS) Provider Course

“I feel more comfortable using a systematic approach in assessing a patient for respiratory failure and/or shock. I also feel more confident in distinguishing between the different types of respiratory conditions and shock conditions.”
–PEARS Participant 10/17/17

“I was impressed at how well the instructor adapted the presentation for the community health nurses. Most courses are designed for the hospital employee but half the class worked in the community setting without the tools hospitals have. The instructor did a great job of adapting the information and discussion to what is available for us.”
–PEARS Participant 10/17/17
Accreditation
Provider approved by the California Board of Registered Nursing, Provider Number 16541 for 6.75 Contact Hours.
None of the instructors, planners, or faculty/content specialists have any conflict of interest or will be discussing any off-label product use.

Agenda
7:45 am    Registration
8:00 am    Course Intro
8:05 am    Lesson 2: Course Overview
8:10 am    Lesson 3: Science of Pediatric Resuscitation
8:20 am    Lesson 6a: Overview of the Systematic Approach and Initial Assessment

2:40 pm    Video-Based Exam
3:25 pm    Remediation/Evaluation
3:50 pm    Adjourn

Course Overview
The Pediatric Emergency Assessment, Recognition and Stabilization (PEARS) Provider Course is designed to increase the pediatric healthcare provider’s knowledge and skills necessary to assess early signs of respiratory failure and shock, provide early emergent interventions, and alert the appropriate Advanced Life Support (ALS) response team.

Content taught in PEARS
- Systematic pediatric assessment
- Recognition and management of respiratory problems
- Recognition and management of shock
- Recognition and management of cardiac arrest
- Resuscitation team concept

Who should attend?
PEARS is for healthcare providers such as medical and surgical nurses, school nurses, homecare nurses, emergency medical technicians (EMTs), and any other healthcare providers who infrequently see critically ill infants and children.

Course Requirements
The PEARS Provider Manual (2017) is required for the course. Please purchase from one of the following distributor if you do not already have one.
