| <b>WHO</b>   | Should be referred to the Adolescent Medicine Clinic for chronic health conditions? | Our team provides consultations for young people with a variety of problems related to long-term illness such as diabetes, cystic fibrosis, transplant and other chronic conditions. We work with teens and their families to help youth find ways to sticking to treatment plans, deal with the mental and social stresses of chronic illness, and build skills necessary to transition to adult care providers.   |
| <b>WHAT</b>  | Work-up is needed prior to the first appointment?                                   | No pre-referral work-up is required. Recent clinic notes including growth grids, as well as relevant lab studies and a list of all medications should be faxed to 206-985-3121. If imaging studies have been performed please upload to PACS or hand carry to the clinic visit.   |
| <b>WHICH</b> | Provider will my patient see at the first appointment?                              | Your child will be seen as quickly as possible with the provider on the specialty team who is the best match for managing the current problem.
