

<h2>WHO</h2>	<p>Should be referred to the Infectious Diseases and Virology Clinic?</p>	<p>We see patients ages 0-21 in our general infectious diseases clinic most commonly for: frequent infections, lymphadenopathy, persistent fever without source, recurrent fevers, positive PPD, tuberculosis as well as a variety of other less common infections. We also see patients in hospital follow-up for serious and invasive infections for long term antibiotic management and monitoring. Our virology clinic focuses on the following congenitally acquired infections: cytomegalovirus, herpes simplex virus, human immunodeficiency virus exposure and human immunodeficiency virus (HIV) infection. Our MRSA clinic is intended for patients with a history of recurrent MRSA infections with motivated families interested in learning about decolonization.</p>
<h2>WHAT</h2>	<p>Work-up is needed prior to the first appointment?</p>	<p>No pre-referral work-up is required for most conditions. For patients with a positive test for tuberculosis and who have had a chest X-ray, please send both the chest X-ray report and a copy of the chest X-ray itself. If you have already done a work-up for other conditions, please fax your information to 206-985-3121.</p>
<h2>WHICH</h2>	<p>Provider will my patient see at the first appointment?</p>	<p>Your child will be seen as quickly as possible with the provider on the specialty team who is the best match for managing the current condition. To meet the Infectious Diseases and Virology team CLICK HERE.</p>
<h2>WHERE</h2>	<p>Will my patient be seen?</p>	<p>Infectious Diseases and Virology Clinic is held in Seattle. For maps and directions CLICK HERE.</p>
