

Referral Guidelines and PCP Resources

Our goal is to improve access to care across our specialties with equitable policies that ensure those children who need us can be seen on a timely basis. In some cases, referrals may be re-directed to primary care.

Seattle Children's has updated our referral policies for many of our specialty clinics including:

[Adolescent Medicine](#)

[Biofeedback](#)

[Dermatology](#)

[Eating Disorders](#)

[Endocrinology and Diabetes](#)

[Gastroenterology and Hepatology](#)

[Gender Clinic](#)

[Genetics](#)

[Gynecology, Ped./Adolescent](#)

[Hepatology](#)

[Nephrology](#)

[Neurodevelopmental](#)

[Neurosciences](#)

[Ophthalmology](#)

[Otolaryngology](#)

[Pulmonary](#)

[Pulmonary Diagnostics Lab](#)

[Psych. & Behavioral Medicine](#)

[Reproductive and Sexual Health](#)

[Rheumatology](#)

[Sleep Medicine](#)

[Urology](#)

[Vascular Anomalies](#)

Referral policies for [all specialty clinics](#) can be accessed via seattlechildrens.org "[Referral Information by Clinic.](#)"

PCP Resources: To aid PCPs in assessing and managing patients' conditions, we are offering many new resources and algorithms. They are found on clinics' "Refer a Patient" pages as well as our "[Algorithms for Referring Providers](#)" page.

Algorithms:

[Antenatal Hydronephrosis](#)

[Antinuclear Antibodies \(ANA\)](#)

[Back pain](#)

[Constipation](#)

[Diabetes: Patients Newly Diagnosed With Diabetes](#)

[GERD in Infants \(0 to 12 months\)](#)

[GERD in Children Ages 1+](#)

[Goiter](#)

[Growing Pains](#)

[Headache](#)

[Henoch-Schönlein Purpura \(HSP\)](#)

[Hypermobility](#)

[Hypothyroid](#)

[Multisystem Inflammatory Syndrome in Children \(MIS-C\)](#)

[Obesity](#)

[Otitis Media \(Acute Otitis Media, Acute Otitis Media With Treatment Failure, Chronic Otitis Media, Recurrent Acute Otitis Media\)](#)

[Pharyngitis \(Acute Pharyngitis and Recurrent Pharyngitis\)](#)

[Phimosis](#)

[Precocious Puberty](#)

[Proteinuria](#)

[Short Stature](#)

[Sinusitis \(Acute Sinusitis and Chronic Sinusitis\)](#)

[Tonsillar Hypertrophy](#)

[Urinary Tract Infection](#)

[Urticaria](#)

[Varicocele](#)

[Vesicoureteral Reflux](#)

[Vitamin D Deficiency](#)

Other PCP resources:

[Acne](#)

[Blood pressure tables, pediatric \(Tables 3 to 5\)](#)

[Contraceptive use](#)

[Enuresis/incontinence \(daytime and nighttime\)](#)

[Eye care: community pediatric eye providers in WA](#)

[GYN vs. Repro/Sexual Health: where to refer](#)

[Headache](#)

[Hematuria \(including hematuria with proteinuria\)](#)

[Kidneys \(common structural kidney anomalies detected on imaging: what to tell your families\)](#)

[Kidney function \(abnormal\)](#)

[Mental health: resources in the community](#)

[Migraine](#)

[Molluscum](#)

[Nephrotic syndrome](#)

[Obesity](#)

[Pain syndromes](#)

[Phimosis](#)

[Postural orthostatic tachycardia syndrome \(POTS\)](#)

[Tic disorders/Tourette syndrome](#)

[Urinary tract infection](#)

[Vesicoureteral reflux \(VUR\)](#)

[Warts](#)
