

Ryan Antiel, MD, MA

Dr. Ryan Antiel is a general surgery resident at the Mayo Clinic and is currently completing his research years as a post-doctoral fellow at the University of Pennsylvania Perelman School of Medicine in the Department of Medical Ethics and Health Policy. His research, addressing ethical challenges in maternal-fetal surgery, is funded by the Greenwall Foundation.

Dr. Antiel earned his medical degree from Mayo Medical School. His clinical interest is in pediatric surgery. He was previously an Edmund Pellegrino fellow at Georgetown University's Center for Clinical Bioethics. His recent scholarship is focused on treatment recommendations and decision-making in seriously ill fetuses and neonates. His work has appeared in leading journals including the New England Journal of Medicine, JAMA Surgery, and Pediatrics.
