

Lainie Friedman Ross, MD, PhD

Dr. Ross is the Carolyn and Matthew Bucksbaum Professor of Clinical Medical Ethics; Professor, Departments of Pediatrics, Medicine, Surgery and the College; and Associate Director of the MacLean Center for Clinical Medical Ethics. Dr. Ross has published two books on pediatric ethics: *Children, Families and Health Care Decision Making* (Oxford University Press, 1998) and *Children in Medical Research: Access versus Protection* (Oxford University Press, 2006) and has co-authored two books with Robert M Veatch (*Transplantation Ethics*, 2nd edition, Georgetown University Press, 2015; and *Defining Death: The Case for Choice*, Georgetown University Press, 2016). Dr. Ross has also published over 150 articles in peer-reviewed journals in the areas of pediatric ethics, transplantation ethics, research ethics and genetics and ethics.

Dr. Ross earned her AB from the Woodrow Wilson School of Public and International Affairs at Princeton University (1982); an MD from the University of Pennsylvania School Of Medicine (1986) and a PhD in philosophy from Yale University (1996). She did her pediatric residency at the Children's Hospital of Philadelphia (1986-1988) and at Columbia University (1988-1989).

Dr. Ross was a 2014 recipient of a John Simon Guggenheim Memorial Foundation Fellowship and the 2015 recipient of the William Bartholome Award in Ethical Excellence from the American Academy of Pediatrics. She currently serves as the chair of the NIH study section of Societal and Ethical Issues in Research (SEIR), as a member of the National Institutes of Health (NIH) Recombinant DNA Advisory Committee (RAC), and a member of the external expert panel (EEP) of the NIH APOL1 Long-term Kidney Transplantation Outcomes Network (APOLLO).
