Billy Roden
Billy is originally from Alabama and has degrees in Biology and Psychology from Saint Louis University.
He spent some time researching the brain and a medical condition called epilepsy.
He then joined the Science Education Department and is a Senior Scientist. He loves to share how cool the brain and nervous system are with students.

Corey Coombs
Corey is originally from Marysville, Washington and has degrees in Biochemistry and Biology from University of Washington.
He joined the Science Education Department in 2016 and is a Senior Scientist. He loves to talk about different chemical reactions and cells, and why they are important.

Sarah Garcia
Sarah is originally from California and has a degree in Public Health from University of Washington.
She joined the Science Education Department in 2019 and is a Mobile Lab Scientist. She loves to share how students can keep themselves and those around them healthy.
