

## The Seattle Children's Cystic Fibrosis Clinic

recommends that children and teens with CF be treated with antibiotics for a new or an increased cough that is not getting better on its own after 3 to 5 days.

**Time for Antibiotics**      Date: \_\_\_\_\_

My lung cultures have grown (germs):

\_\_\_\_\_

\_\_\_\_\_

Therefore, the best antibiotic(s) for me would be:

\_\_\_\_\_

\_\_\_\_\_

Typically I need to take oral antibiotics for a full 14 days. But, if I'm not improving after 3 to 5 days on antibiotics, I should talk with the CF Clinic.
