

WHO	Should be referred to the Craniofacial Center?	Our multidisciplinary team provides diagnosis and long term management for patients ages 0-21 with craniofacial abnormalities including cleft lip/palate, craniosynostosis, craniofacial microsomia and other complex craniofacial conditions. Learn more about the conditions we treat.
WHAT	Work-up is needed prior to the first appointment?	<ul style="list-style-type: none"> • No pre-referral work-up is required for most conditions. • If you have already done a work-up, please fax clinic notes that are relevant to this referral, including information such as head circumference and a description of head shape, to 206-985-3121. • If imaging studies (CT, MRI, X-rays) have already been done, please upload to PACS or mail a disc to clinic. <p>For information on how to send imaging to Seattle Children's Hospital electronically, please visit seattlechildrens.org/uploadimage or you may mail a disc to: Seattle Children's Craniofacial Clinic P.O. Box 5371/OB.9.520 Seattle, Washington 98145-5005</p>
WHICH	Provider will my patient see at the first appointment?	Patients will be seen as quickly as possible by a multidisciplinary team from 19 specialty areas. This enables our team to create an individual plan of care for your patient. Meet the Craniofacial team.
WHERE	Will my patient be seen?	Craniofacial clinics are held in Seattle and the Tri-Cities. See maps and directions.
